Dear Chris and the Abacus Employment team,

Every day, over 600 children and their families from around the UK arrive at Great Ormond Street Hospital in urgent need of life-changing treatment. Every day, lives hang in the balance as staff, patients and their families battle the most complex of illnesses.

This extraordinary hospital has always depended on charitable support to give seriously ill children the chance of fulfilling their potential. With new challenges, and more and more children requiring treatment, we need support now more than ever.

We are incredibly grateful for your donation of £500 and for your continued support over the years. Without you, we can't help rebuild and refurbish the wards and facilities that let the hospital treat more children. Without you we can't help fund pioneering research that will help solve medicine's greatest mysteries. Without you, we can't help fund the most advanced equipment for treating the toughest and rarest childhood conditions. Without you, we can't support the children and their families when they need it most.

Thanks to you, a better future for seriously ill children starts here.

On behalf of all of the children, their families and the staff at Great Ormond Street Hospital, thank you.

Very best wishes,

Polly Hale
Business Development Executive
